

926 Series

Outdoor Digital Keypads

SDC's 926 series outdoor standalone digital keypads with incorporated privacy and weather protected housing are designed to control doors or gates with up to 500 users. Each user is assigned a personal identification number (PIN). Keypad entry of a valid four to six digit code activates one or both of the output relays.

The keypad electronics are secured by an integral key lock and built-in tamper switch.

The heavy steel vandal resistant housing design allows the 926 to be surface mounted on a wall or pedestal post.

- Digital keypad with backlit keys
- 12-key illuminated, moisture-resistant keypad
- Weather & vandal resistant housing with tactile metal keys
- Keypad programmable
- 500 user codes
- 4 outputs, 2 relay and 2 solid state
