Door Access Control Solution™

for simple application

IP Pro™

IP-based Access Control Starter Kit

SDC
Security Door Controls

Finally, IP Security has reached the door

Until now,
IP security systems have focused on network software and cameras, without truly addressing **door control**, **the missing link** to any total access control solution: securing the door opening.

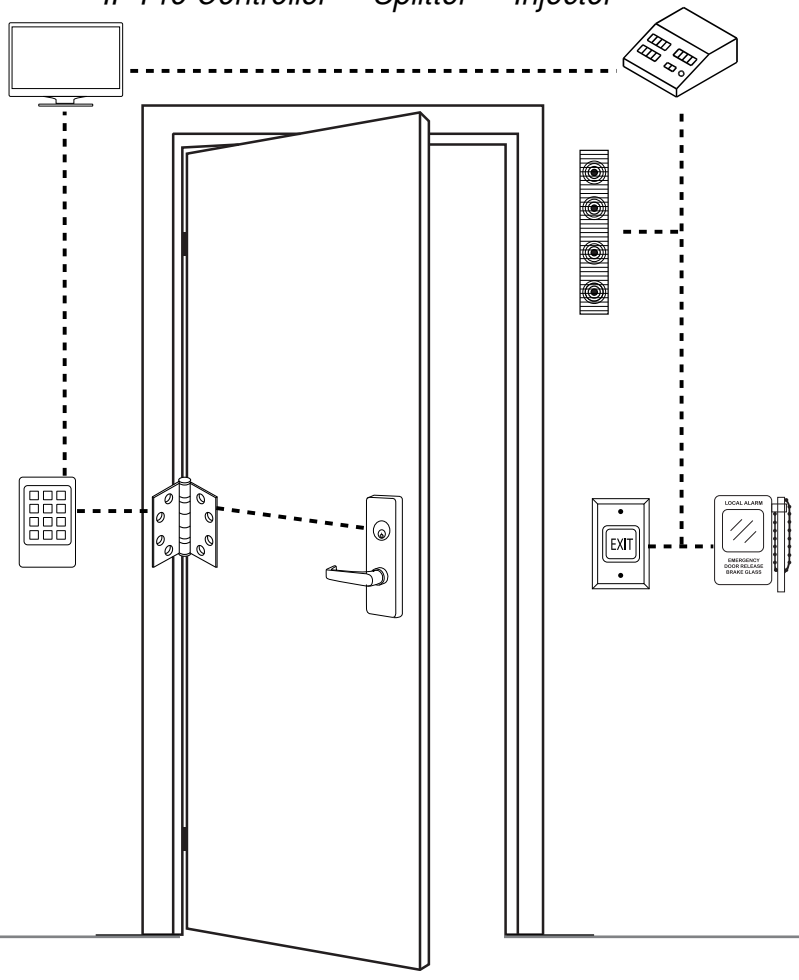
SDC brings the same robust, reliable Access Control Electrified Locking Hardware the industry has relied upon for over 40 years to your door.

IP Pro™

IP-based Access Control Starter Kit

IP Pro™ Solution

IP Pro Controller • Splitter • Injector



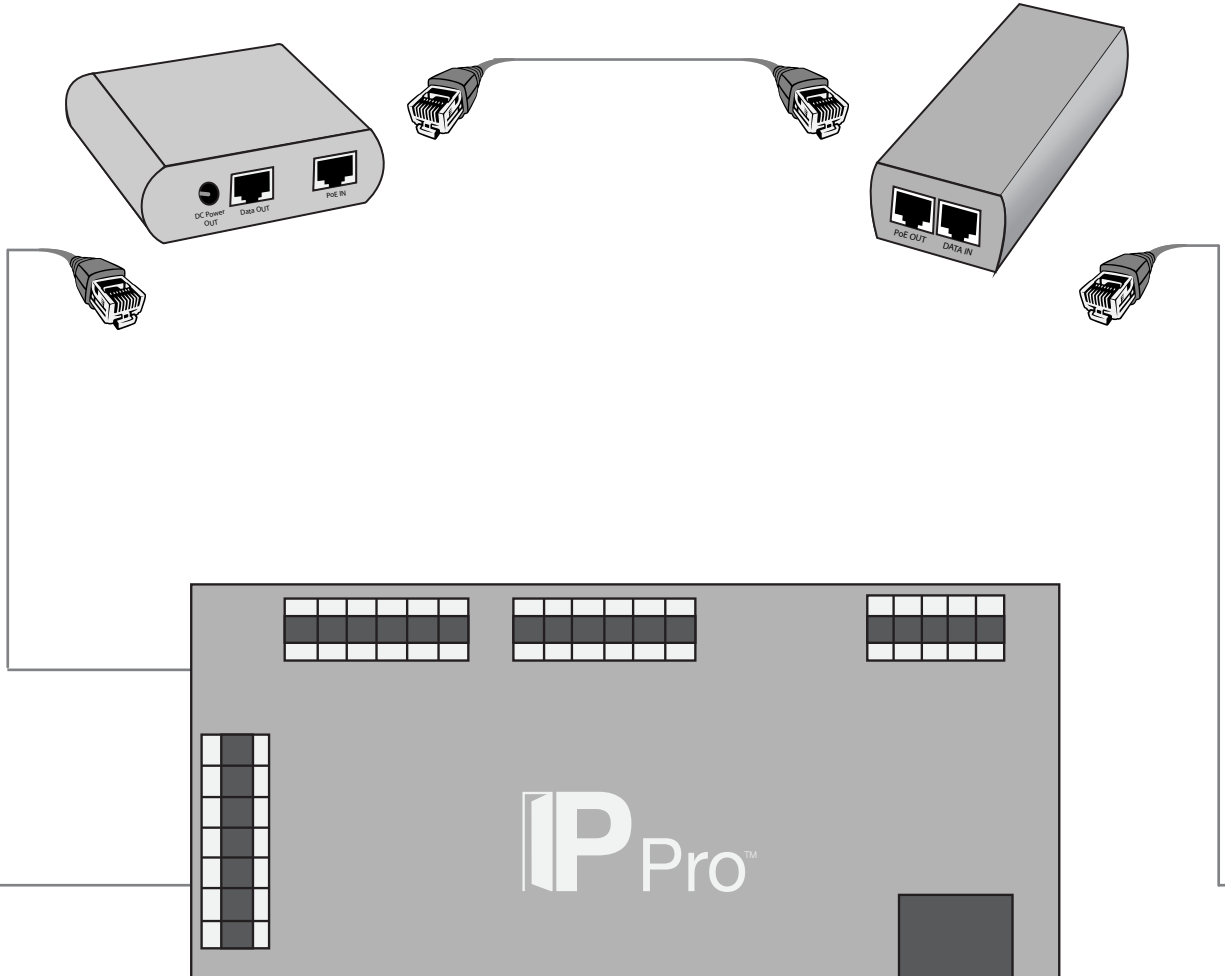
- *Locking Device*
- *Access Control*
- *Egress Device*
- *Power Transfer*

IP Pro™ is a complete line of low power, Professional Grade Door Access Control Solutions – all easily connected and powered by ordinary **Ethernet network** cables – providing incredible **flexibility** and **cost-savings** when installing access control.

Our IP Pro™ IP-based Access Control Starter Kit is a simple and cost-effective solution to control a single or multiple doors – with everything needed for a complete, IP door access control system, adaptable to existing PoE Networks.

Adaptable Professional Grade Door Access Control Solutions

IP Pro™ Starter Kit



Central to our starter kit is the **SDC IP Pro™ Controller** – with **embedded, browser-based software** – allowing for door access control via LAN or internet connected device.

The controller installs easily at the door and only requires a single network cable, reducing costs. Expanding to additional doors is as simple as installing a new door controller and connecting to the nearest network switch.

Rounding out our solution are **SDC IP Pro™ Injectors** and **Splitters**, **Locking Devices**, **Access Controls**, **Egress Devices**, **Egress Controls** and **Power Transfer Devices** you may need to complete a system. Gone are the days of mixing and matching different brands of hardware, software and IP components. Everything is compatible and guaranteed to work. You select only the components you need to complete your starter kit – all from a single, reliable industry source…SDC.
