## 474 NO TOUCH SWITCH SERIES - WAVE-TO-OPEN SWITCHES

474 Touchless Switches use Active IR Sensor Technology. A simple wave in front of the 474 Touchless Switch activates the switch to control electric locks/ strikes, magnetic locks, or automatic door operators for entry or egress.

- Adjustable 2"-7" Activation Read Range
- Dual LED, Illuminated Sensor for Status Indication

**Output:** SPDT 3 Amp Dry Contact  
**Input:** 25mA (standby); 55mA (active) @ 12/24VDC  
**Faceplate:** 20ga Stainless Steel
