

BUILT FOR THE WAY ACCESS CONTROL PROFESSIONALS WORK

Compact Low-Energy
Swing Door Operators

AUTOM3

Single Door Operation,
Arm Kit, (1) Push and (1) Pull Arm

WHAT YOU NEED TO KNOW:

SDC's AutoMINI™, the **AUTOM Series**, delivers the proven performance of SDC's AUTO Series in a compact 23" low-energy swing door operator designed to simplify installation, inventory management, and deployment.

Engineered around the way technicians work in the field, **AutoMINI™** features a **field reversible housing** that can be flipped to accommodate door handing and an arm kit to handle push or pull applications—with no internal drive unit reconfiguration required. **Slotted mounting keyholes** simplify positioning and adjustment, helping reduce installation time and labor.

Its compact footprint makes AutoMINI ideal for truck stock, retrofit work, service calls, emergency replacements and quick-turn installations. And its smaller footprint **frees up warehouse space** while **reducing freight and landed cost**.

Like the full-size AUTO Series, AutoMINI provides single-button self-tuning setup, obstruction detection, onboard lock sequencing and a **built-in 1 amp+ power supply**, providing a complete, dependable solution for a wide range of automatic door operations.

For facility owners and occupants, AutoMINI delivers smooth, quiet operation, reliable accessibility compliance, and dependable door automation in a compact, modern package.

HOW YOUR CUSTOMER BENEFITS:

- Compact 23" housing
- Same performance as the full AUTO Series
- Faster, easier single-technician installation
- Slotted mounting keyholes
- Arm kit for push or pull applications
- Field reversible housing for either handing
- No internal drive unit reconfiguration required
- Compact footprint for truck stock and warehouse efficiency
- Single-button, self-tuning setup
- Extremely quiet operation
- Obstruction detection
- Momentary back-pressure relief
- Adjustable hold-open timer
- Preset dip switches for alternative functions
- Onboard lock sequencing
- Built-in 1 Amp+ power supply
- Ideal for retrofit and replacement projects
