

# 55 Series

## 3/4" Latchbolt Electric Strikes

SDC's 55 series 3/4" latchbolt electric strikes are heavy duty, designed for installation in hollow metal frames for access control of cylindrical locksets, mortise locksets with or without deadbolts and mortise exit devices. 55 series strikes accept 3/4" throw latchbolts and up to 1" throw deadbolts.

The choice of six application faceplates eliminates the need for centerline relocation, making them ideal for new or retrofit, high security access control applications.

55 series strikes retrofit existing ANSI 4 7/8" strike prep – no centerline relocation required.

- Heavy duty
- Stainless steel components
- Stainless steel square corner faceplate
- Heavy cast housing body and keeper
- Corrosion and tamper resistant
- Horizontal alignment adjustment
- Non-handed
- Interchangeable faceplate design
- Internally mounted solenoid
- Field selectable operation
- Field selectable dual voltage
- Voltage and current spike protection
- Pigtail connectors
